

To Whom It May Concern:

This certificate certifies that NCS Spor located in İstanbul, Türkiye is the distributor within Turkey, Iran, Iraq and Egypt for all Ice Rink Engineering & Manufacturing, LLC products including but not limited to the EZ Glide 350 Synthetic Ice Product.

The EZ Glide DL DoveTail products were designed specifically for year-round, outdoor use in all weather conditions. The natural expansion-contraction on all materials, caused by swings in temperature, has no negative effect on the EZ Glide 350 DoveTail panels.
